Shiftboard

The Ultimate Employee Scheduling Companion for Manufacturing Supervisors

As a manufacturing supervisor, you need to manage schedules efficiently and react swiftly to unexpected changes. Shiftboard automates time-consuming scheduling tasks and ensures optimal decisions, giving you more time to focus on the floor and keep production running smoothly.

Start Your Day Right

- Full Coverage Visibility: See who is working where and who is on time off, and swiftly identify any understaffed or overstaffed areas.
- Effortless Adjustments: Quickly finalize schedules and worker assignments right before the shift begins.
- Efficient Time-Off Requests Handling: View all incoming requests in one place and make informed approvals with insights on coverage impact and leave balances.
- Automated Communication: Instantly notify impacted` workers of scheduling changes and new openings via texts, mobile push notifications, emails, or automated calls.

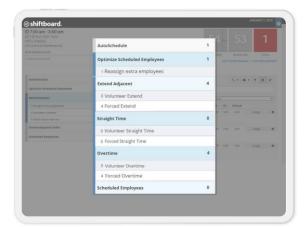

Manage the Day's Surprises with Confidence

- **Instant Call-Offs Alerts**: Capture last-minute worker call-offs with an automated hotline and receive instant alerts with essential details.
- **Easy Worker Backfill:** Find and assign backfills from a curated worker list, automatically validated for qualifications, skills, availability, and other scheduling rules.
- Uncover Hidden Capacity: Use the optimization engine to explore more coverage possibilities, such as worker shuffles and shift-splitting, before deploying extra workers and overtime.

Wrap the Day with a Breeze

- **Seamless Integration**: Sync and update scheduling data with your time and attendance tool of choice, eliminating double data entry.
- **Planning Ahead:** Generate future schedules with a single click, automatically assigning workers based on shift patterns and filling gaps as per your scheduling rules.
- **Proactive Backup Pool:** Post shift openings for bidding, volunteering, or immediate pickups to stay ahead of potential staffing shortages.
